# *Few Words About The Museum*

Art is a creative activity. It produces a product, an object. Art is a diverse range of human activities in creating visual, performing subjects, and expressing the author's thoughts. The product of art is called a work of art, for others to experience. A painting by Renoir is a work of art. Art has been defined as a vehicle for the expression or communication of emotions and ideas, a means for exploring and appreciating formal elements for their own sake, and as mimesis or representation.
